

COLUMBUS FASTENERS CORP.

**FASTENERS, ABRASIVES, CUTTING TOOLS & INDUSTRIAL SUPPLIES
INDUSTRIAL, CONSTRUCTION, MAINTENANCE & INSTITUTIONAL**

Company Story

Columbus Fasteners is a full line distributor of fasteners, construction and industrial supplies. We have been in business over 40 years serving Ohio and surrounding states from our Columbus and Cincinnati locations. We offer several advantages to our customers that make us a leader in our industry and help our customers lower the total cost of ownership.

Inventory We stock over 23,000 items in our warehouses. Our supply of fasteners, anchors, tooling, abrasives and other construction and industrial supplies is by far the largest in the area. Fasteners tend to be inexpensive, 'forgotten items' until they hold up production. We can help you keep your project on schedule with our breadth and depth of stock.

Flexibility Our customers can order by phone, fax, EDI and through our web site (www.colfast.com). We have no call screeners or voice mail. When you call, you will speak directly with one of our inside sales staff.

Knowledge Our sales and warehouse staff are knowledgeable and well trained in all types of fastening, industrial and construction products. We can not only take orders, we can make suggestions and help solve problems.

Rapid Response We make "Rush" shipments every day to customers throughout the state. When unforeseen needs arise, our inventory and quick turn around time let us respond immediately, not days later. Even on 'normal' orders, we are able to ship almost all orders received by 3:00 PM.

Fasteners

Hex Cap Screws & Bolts

Hex Cap Screws & Bolts

Gr 2 & A307-A	Plain, Zinc & Galvanized
Tap Bolts	Zinc
Grade 5	Plain and Zinc
